

**QUITTAPAHILLA WATERSHED ASSOCIATION
MEETING MINUTES
ANNVILLE TOWN HALL
January 21, 2016**

Present: Dave Lasky, Ann Lasky, Mike Schroeder, Russ Collins, Kent Crawford, Joe Connor, Alan Wood, Alicia Norris

The meeting was called to order at 7:00 PM

1. Most of the evening was given over to a public presentation by Dr. Alan Wood on Stream Restoration Techniques. In addition to the aforementioned members of the Association, nine members of the general public were in attendance. Mike has the list with accompanying emails.
2. Before Alan's talk a brief business meeting was held.
3. The minutes of the previous two QWA meetings were approved as circulated.
4. The suggestion was made to send a thank-you letter to former QWA Secretary David Bailey for his years of service to the Association. Mike agreed to draft and circulate such a letter.
5. At 7:10 PM, Dr. Alan Wood began his richly detailed, highly informative, and well-received public presentation on Stream Restoration Techniques. Perhaps his main point was that there are a wide diversity of techniques used to restore streams to health, and that, like tools in a carpenter's toolbox, each is useful in its own way and needs to be adapted to the specific local circumstances.

The meeting adjourned at 8:00 PM.

Respectfully Submitted,

Michael Schroeder, Secretary Pro Tem
